ABOUT

Description

QIWI TWINS is a modern residential project in Alanya, set on a 2,000 m² plot with 36 independent units. It combines landscaped outdoor spaces, a swimming pool and parking with indoor facilities including a gym, cinema room, children's playroom, Turkish bath and jacuzzi. Quality interior specifications and 24/7 security support comfortable contemporary living.

QIWI TWINS apartments and project features

Designed to address different residential needs, QIWI TWINS brings together contemporary architecture, practical communal areas and a broad selection of facilities within one development. With only 36 independent units across the project, the site has a clearly defined residential scale while still providing spaces for exercise, relaxation, recreation and social activities.

- Modern residential development in Alanya
- 2,000 m² project plot
- 36 independent units
- Outdoor swimming pool and landscaped green areas
- Gazebo and barbecue area
- On-site parking
- Gym and cinema room
- Children's playroom and lobby
- Turkish bath and jacuzzi
- 24/7 security service

The outdoor areas are planned to support day-to-day leisure without leaving the development. Residents can use the swimming pool, spend time in the green areas or gather around the gazebo and barbecue section. On-site parking adds practical value for vehicle owners, while the 24/7 security service is intended to provide a secure and peaceful residential environment.

Indoor communal facilities expand the ways residents can use the project throughout the year. The gym provides a dedicated space for exercise, while the cinema room offers an additional entertainment option. A children's playroom has been included for younger residents, and the lobby creates a welcoming shared entrance area. The Turkish bath and jacuzzi complement these facilities with spaces focused on relaxation.

Quality interior materials for modern living

The apartments at QIWI TWINS feature a selection of materials and fittings chosen to support contemporary living standards. Double-glazed insulated windows contribute to interior comfort, and the bathrooms are equipped with tempered-glass shower enclosures and Hilton-style washbasins. Lacquered interior doors are paired with steel entrance doors, combining a modern finish with a robust main entry.

Large-format 60 × 120 granite flooring gives the interiors a consistent and contemporary appearance. In the kitchens, lacquered cabinetry is complemented by Star Galaxy black granite, creating a distinctive surface with a polished visual character. These specifications provide buyers with clear information about the project's material choices without relying on purely decorative claims.

A residential project for living or investment in Alanya

QIWI TWINS may suit buyers comparing modern apartments for sale in Alanya with extensive shared amenities. Its combination of outdoor recreation, indoor social facilities, security and specified interior finishes makes it relevant both for personal residential use and for buyers assessing a property purchase in the local market. Available unit plans and current sales details should be reviewed individually to identify the option that best matches the buyer's requirements.
