The duplex format distributes the accommodation across two levels, providing a clear distinction from a conventional single-floor apartment. Its 2+1 configuration and 120 m² area offer useful space for everyday living, while the property is sold fully furnished. This makes the apartment a practical option for buyers who prefer an established interior rather than starting with an unfurnished home.

A spacious balcony and terrace extend the usable living environment outdoors. Both the sea and Alanya Castle are included in the property's outlook, giving the exterior areas particular value for relaxing, dining or enjoying the coastal setting. The ninth-floor position also contributes to the elevated perspective described for the apartment.

Vesta Garden provides a broad selection of shared facilities for different seasons. Residents can use an outdoor swimming pool during warmer periods and an indoor pool when an enclosed setting is preferred. The fitness centre supports regular exercise, while the Turkish bath, sauna and steam room provide dedicated spaces for relaxation within the complex.

The communal facilities also include a basketball court and a children's play area, adding recreational options for different age groups. Open parking is available within the site, and the on-site café offers an additional social space. Security is supported by a 24/7 service and camera system.
