The apartment combines a spacious 120 m² plan with the practical advantages of two bathrooms and two balconies. Its 2+1 configuration provides a clearly defined residential layout, while the additional bathroom can make everyday routines more convenient. The two balconies also provide separate outdoor areas connected to the apartment. No specific view is stated for this property.

The apartment is offered furnished, which may simplify preparation for occupancy compared with an unfurnished home. As the source does not specify the individual furniture, appliances or decorative items included, buyers can request a current inventory from Alanya Home before making a decision.

Waterfall Resort facilities in Tosmur, Alanya

Waterfall Resort provides a broad selection of shared facilities. The complex includes a swimming pool, a separate children's pool and a water slide. A children's playground and garden areas offer additional spaces within the grounds. Residents also have access to a gym and sauna.

Practical infrastructure at the residence includes parking, a lift and a generator. These features support convenient daily use of the complex without making assumptions about parking allocation, generator coverage or accessibility arrangements. Buyers who require specific technical information can confirm the relevant details before viewing.

The stated location places the residence 850 metres from the sea and 600 metres from the centre. These measured distances help buyers assess the apartment's position in Tosmur without relying on vague location claims. Tosmur is part of the Alanya property market, and this home may suit buyers prioritising a furnished 2+1 layout, generous floor area and on-site social facilities.

Who may find this Tosmur apartment suitable?

With 120 m² of space, two bathrooms, two balconies and a second-floor position, the apartment offers a practical combination for regular residential use or longer stays. The pool areas, children's facilities, gym, sauna and garden spaces provide several options for different members of a household, while the lift and generator add useful support to the complex infrastructure.
