Complex facilities and a beach-accessible Tosmur location

Panorama Residence is an enclosed, orderly residential complex with shared facilities intended to support everyday comfort. Residents have access to an outdoor swimming pool and a separate children’s pool. The complex also provides parking, a generator and a security camera system. These facilities bring together leisure areas and practical infrastructure within the residential grounds.

The property is situated in Tosmur, one of Alanya’s established residential districts, and the beach is approximately 600–800 metres away. This distance makes the coastline accessible without placing the property directly on the seafront. The combination of a furnished interior, generous usable area, two bathrooms, two balconies and on-site facilities makes the apartment relevant for personal residence as well as investment consideration, without relying on unverified return projections.

The stated complex fee is 2,800 TL. Prospective buyers may confirm the applicable payment period and current fee conditions during the purchasing process.
