This Tepe villa combines a substantial private land area with a three-level interior layout. Its 225 m² gross usable area is distributed across three floors, providing clearly separated levels within the home. Although the source does not specify the number or arrangement of bedrooms, the stated dimensions, three bathrooms with WC and three balconies are important practical details for buyers comparing private villas in Alanya.

The property is offered fully furnished, allowing the included furniture to form part of the purchase rather than requiring the new owner to furnish the villa from the beginning. The three balconies add separate outdoor areas to the multi-storey design and provide opportunities to enjoy the villa's verified panoramic sea view.

A private swimming pool is one of the property's principal features. Unlike a shared complex pool, it is reserved for the villa, offering a dedicated setting for swimming and relaxing at home. A jacuzzi adds another leisure facility, while the storage room provides useful space for household belongings, seasonal items or pool-related equipment.

The solar water heater is a practical feature that uses solar energy for water heating. Together with the furnished condition, private pool, jacuzzi and storage provision, it contributes to a well-equipped property suited to buyers seeking a villa with established home and leisure features.

Panoramic sea views in Tepe, Alanya

The villa is located in Tepe, within the White Villas property, and has a panoramic view of the sea. The stated distance to the coast is 4 km. This gives prospective buyers a clear reference point when assessing the property's location in relation to Alanya's shoreline.

The combination of a private 450 m² plot, 225 m² of gross usable space, three floors and dedicated leisure facilities may appeal to buyers looking for a furnished private residence in Tepe. The villa can be considered for personal year-round or holiday use according to the buyer's individual requirements, without relying on unspecified rental or investment projections.
